

**MUSSEY GRADE ROAD ALLIANCE DATA REQUEST
MGRA-DR-004
SDG&E/SOCALGAS 2021 RAMP REPORTS- A.21-05-011/014
DATE RECEIVED: AUGUST 31, 2021
DATE RESPONDED: SEPTEMBER 15, 2021**

As part of its Wildfire Mitigation Plan data releases, SDG&E has provided OEIS (formerly WSD) with GIS shapefiles representing power shutoff polygons associated with its circuits for PSPS events in 2019 and 2020. SDG&E's historical tabular data also shows that it conducted extensive PSPS events in 2017 and 2018. SDG&E also reported power shutoff events in May 2014.

Question MGRA 23:

Please provide shapefiles for SDG&E power shutoff events in 2014, 2017, and 2018, in a similar format to that of the 2019 and 2020 GIS data releases for OEIS.

SDGE/SCG Response Question MGRA 23:

SDG&E objects to this request on grounds that it requests files that do not exist. SDG&E does not have and is unable to create and provide shapefiles for the requested shutoff events. Due to changes in circuit configurations and sectionalizing devices, the requested shapefiles are unable to be generated.

SDG&E/SOCALGAS 2021 RAMP REPORTS- A.21-05-011/014
DATE RECEIVED: AUGUST 31, 2021
DATE RESPONDED: SEPTEMBER 15, 2021**

Question MGRA 24:

If this data does not exist or would be burdensome to produce, provide a list of shutoff events containing the circuit numbers, dates, times, and durations in Excel format.

SDGE/SCG Response Question MGRA 24:

Please see the separately attached file, MGRA DR-4_Q24.xlsx.
